

REMARKS/ARGUMENTS

As requested, a copy of the UK search report is submitted.

The objections to pages 8 and 9 of the specification are noted. Those incorrect uses of reference numbers have been corrected. In addition, standard section headings have been added to the specification.

It is next noted that claim 8 was objected to as being dependent upon a rejected base claim, but that it would be allowable. Claim 1 has been amended to include therein all of claim 8 which was the claim found allowable.

Although claim 8 had additionally been dependent upon claim 2, the elements of claim 2 are not included in the amended claim 1 because they recite an additional feature which is not needed to distinguish now amended claim 1 from the prior art, in view of the indication of allowability of original claim 8. Claim 2 remains as a dependent claim.

In addition, claim 7 on which claim 8 had been dependent remains. Claim 1 includes the claim 7 elements also, except it recites the blade is secured at an end, which includes one or more ends.

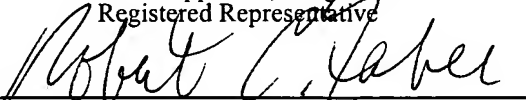

Claims 1, 2 and 7 were rejected under 35 U.S.C. § 102. Claims 1 and 2 were rejected under 35 U.S.C. § 102 over Taormina. Claims 1 and 2 were rejected under 35 U.S.C. § 103. Claims 3 and 4 were rejected under 35 U.S.C. § 103. Claims 3-6 and 9-12 were rejected under 35 U.S.C. § 103. The rejections were rejected over the patents to Maskulka and Taormina.

Reconsideration of all these rejections is requested in view of the amendment of claim 1 to include therein the elements of allowable claim 8. Since claim 1 now is effectively claim 8 (minus claim 2 and part of claim 7), because it is submitted that the element of claim 8 makes amended claim 1 allowable, with the allowance of amended claim 1, the rejection of all of the claims other than claim 8 has been rendered moot and the claims should be allowed.
